

PRATIK PATIL

B.Tech Computer Engineering — Full Stack and AI Software Developer
+919579991561 | pratikspatil009@gmail.com | [LinkedIn](#) | [Github](#) | [Leetcode](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience developing full-stack and AI-powered web and mobile applications using React, Node.js, Java Spring Boot, and Python FastAPI. Proficient in REST API development, MERN stack, database design, and Generative AI integration, with a strong track record of building and deploying end-to-end projects. Solved 200+ Data Structures and Algorithms problems on LeetCode.

EDUCATION

MIT Academy of Engineering, Alandi
Pursuing Bachelor of Technology – Computer Engineering
CGPA: 7.30/10 - until 6th semester

Pune, Maharashtra
Aug 2023 - Jun 2027

EXPERIENCE

Full Stack Development Intern | Campus Credentials — [Github](#) Jun 2025 - Aug 2025

- Developed Exam-Wizards, a smart online assessment platform using React.js, Spring Boot, MySQL, and REST APIs.
- Designed responsive user interfaces and implemented RESTful APIs for seamless frontend-backend integration.
- Built core features including user authentication, exam management, question handling, and result processing.
- Gained hands-on experience in full-stack development, database management, Git version control, and application deployment.

PROJECTS

InterviewVerse AI – Interview Preparation Platform | *MERN Stack, Socket.IO, Gemini AI* [\[Live Link\]](#)

- Built a full-stack interview preparation ecosystem with AI-powered mock interviews and personalized feedback for technical, aptitude, HR, and communication skills.
- Implemented live peer-to-peer interview rooms, resume analysis with ATS scoring, and role-based learning roadmaps.
- Built real-time analytics dashboards to track interview performance, readiness scores, and skill progression.
- Integrated gamification, secure authentication, cloud-based media management, and Razorpay payment gateway for premium subscriptions

Refinify AI | *React, Python, Flask, Gemini AI, Hugging Face, Apache Airflow* [\[Live Link\]](#)

- Built a full-stack AI-powered data preprocessing platform automating data cleaning, augmentation, and analytics.
- Implemented CSV/Excel ingestion, missing value imputation, outlier detection (IQR, Z-Score, Isolation Forest), synthetic data generation, and AI-driven typo correction using Pandas, NumPy, and scikit-learn.
- Built interactive dashboards with Plotly, generated PDF/HTML reports, and integrated Apache Airflow for workflow automation.
- Implemented secure file handling and JWT-based role authentication for scalable, privacy-preserving data processing

Krishi-Bandhu | *MERN Stack, FastAPI, WebRTC, Socket.io, Razorpay, NLP, ResNet-50* [\[Live Link\]](#)

- Built and deployed a bilingual (Marathi/English) agriculture platform serving 1,000+ farmers with real-time government schemes, crop advisory, weather forecasts, and e-commerce.
- Integrated WebRTC and Socket.io for real-time expert consultations, reducing diagnosis time by 70
- Implemented image-based crop disease detection using FastAPI, ResNet-50, and NLP models for personalized recommendations .

SKILLS

- **Programming Languages:** Java(Core + Advanced), JavaScript/TypeScript.
- **Frontend:** React.js, React Native, HTML, CSS, Tailwind CSS .
- **Backend:** Node.js, Express.js, Spring Boot, Spring MVC, Spring Security, FastAPI, REST APIs, Microservices.
- **Database:** MySQL, MongoDB.
- **Cloud and Tools:** AWS, Docker, Git, GitHub, VS Code, MongoDB Compass, Eclipse IDE, XAMPP, Postman.
- **CS Fundamentals:** Data Structures and Algorithms, OOPs, Operating System, Computer Networks.

CO-CURRICULAR ACTIVITIES

- Participated in **STATATHON 2025 Hackathon** a Team Lead and collaborating with a team to design and present an AI-based solution for automated survey data processing and report generation. [\[Live Link\]](#)
- **SMART INDIA HACKATHON 2025** Team Aarohan: Participated in SIH 2025 and proposed Pramaanam AI, an AI-powered document automation platform. [\[Live Link\]](#)
